Students Credits

Co-curricular activities are an integral part of higher education. The core aim of education is to foster all round development. Typically, co-curricular activities are carried out outside the normal classrooms, but they supplement the academic curriculum. These activities help students to develop problem-solving, reasoning, critical thinking, creative thinking, communication, and collaborative abilities. At Madura College, students are not only focused on academics but also groomed in all dimensions. Our students participated in several state level and national level competitions and won prizes. I appreciate the amazing efforts taken by our students to excel in curricular, co curricular and extracurricular activities. I also thank Prof. V. Meenakshi Sundaram of Botany Dept., Prof. P.Manikandan & various other faculty members for their encouragement and support.
