

THE MADURA COLLEGE

An Autonomous Institution affiliated to Madurai Kamaraj University

Re-accredited (3rd cycle) with 'A' grade by NAAC

Vidya Nagar, T.P.K. Road, Madurai – 625 011

GREEN POLICY

A Green Campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The college shall strive to achieve the United Nations Sustainable Development Goals (SDGs) as envisioned in the perspective plan of our college by green initiatives aimed at reducing the carbon footprint of our college. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

The college is striving to develop its institution on a self – sustainable basis in the areas of power, water and cleanliness. The faculty, staff and students is contributing collectively to develop an eco – friendly sustainable campus and disseminating the concept of eco – friendly culture to the nearby community and wherever possible. Awareness creations about environmental issues among students and employees including climate change. Measure and reduce environmental emissions/ footprints.

SCOPE AND GOALS OF GREEN AUDITING

College shall conduct Energy, Environment and Green audit which is serving to recognize opportunities to sustainable development of best practices, enhance environmental quality, improve health, hygiene and safety, reduce liabilities and save money and energy, and ultimately achieve values of virtue. The audits can be a highly valuable tool for college in a wide range of ways to improve their environmental and economic performance and reputation while reducing wastages and operating costs. Once a baseline data is prepared after the auditing process, the data can serve as a point of departure for further action in campus greening. It will also help the college to compare its programmes and activities with other peer institutions, identify areas for improvement and prioritise the implementation of future projects. The data will also provide a basis for calculating the economic benefits of resource conservation projects by establishing the current rates of resource use and their associated attributes. Simple but

effective system was devised and applied to prepare a baseline data and monitor the environmental performance of the Madura College, Madurai. The aim of green auditing is to help the institution to apply sustainable development practices and to set examples before the young learning student community.

The general and specific objectives of audits: The general objective of green audit is to prepare a baseline report on biodiversity and other resources, measures to mitigate resource wastage and improve resource quality and sustainable practices.

A handwritten signature in green ink, appearing to be "J. H.", written over the printed name of the principal.
